

Objective

Innovative and punctual Java Developer with over 2 years of experience in designing, developing, and deploying high-quality web applications and solutions. Proficient in Java, Spring, Hibernate, and other modern technologies, with hands-on experience spanning the full software development lifecycle — from concept to successful implementation and post-deployment support. I am passionate about optimizing development processes and delivering reliable, scalable, and maintainable solutions.

Professional Experience

Acumen Technologies
Middle Java Developer

June 2024

Financial Tracker

Developed the backend part of a personal finance tracking application. The system allows users to register, create wallets, add income and expenses, and track analytics by categories and time periods. It supports multi-currency accounts, transaction filtering, and report export.

Key tasks and achievements

- Set up a REST API based on Spring Boot with JWT authentication and role-based access control (USER / ADMIN).
- Developed entities User, Wallet, Transaction, Category using JPA and Hibernate.
- Ensured automatic wallet balance recalculation when adding/removing transactions
- Implemented pagination and filtering of transactions by date, category, and type (income/expense).

Technology Stack

Java 17, Spring Boot, Spring Security, PostgreSQL, JWT, Docker, REST API, JPA, Maven, Lombok, Swagger

Acumen Technologies
Junior Java Developer

April 2023
May 2024

Hotel Booking

Developed a RESTful API for a hotel booking system, including functionality for checking available slots, creating, and canceling bookings. Implemented JWT authentication to secure requests and manage user permissions.

Key tasks and achievements

- I developed high-load services for bookings and transactions.
- I optimized PostgreSQL performance and managed database migrations using Liquibase.
- I designed and maintained a microservices architecture.
- Additionally, I integrated external services and SMTP for notifications.

Technology Stack

Java 17, Spring Boot (Data, Web, Security), Hibernate, PostgreSQL, Liquibase, Docker, JUnit, Mockito.

IT Space LLC
Internship Java Developer

January 2023
March 2023

Information Technology, System Integration, Internet Internet Company (search engines, payment systems, social networks, informational and educational resources, entertainment platforms, website promotion, and more)

Completed offline courses in Java: Java Core - Multithreading, Collections, Serialization, IO/NIO. Spring Framework (Boot, MVC, Security, Cloud, Data JPA). Microservices, Keycloak, Docker, Kubernetes, Postman, Swagger.

Technical Skills

 JAVA	 Spring Framework	 Spring Cloud
 Hibernate	 Spring Boot	 Spring Security
 Maven	 Spring Data	 RESTful API
 Gradle	 MySQL	 Postgresql
 Redis	 MongoDB	 Kafka
 Junit	 Jenkins	 Git
 Kubernetes	 RabbitMQ	 Docker

Education

Gyumri Oyunjyan secondary school

2001 - 2012

Armenian State University of Economics

Finance, Financial Specialist — **2015 - 2019**

IT Space LLC

Java Developer — **2021 - 2022**

Languages

 Armenian
